

**Subject:** RE: Dog and Marriage license program

My dog license and marriage program is with IMAS. Check out their website [www.imasllc.com](http://www.imasllc.com) it's easy to use and affordable.

My ACO is hooked up to my dog license program ( your choice ) so when I am not in my office he can look up a dog. Even if the dog has no tags , he can narrow it down by the street the dog was found on or by the color of the dog or breed. The marriage license program is just as easy to use and you can save the license. So you can find a license by last name or by month and year. The staff at IMAS are great and very patience and if you get a VM (which rarely happens) they call you right back.

If you have any questions give me a call
